The International Civil Aviation Organization (ICAO) grades English language performance on a scale of 1 to 5:

Level 1 (Pre-Elementary)	Level 4 (Operational)
Level 2 (Elementary)	Level 5 (Extended)
Level 3 (Pre-Operational)	Level 6 (Expert)

In order to conform with ICAO language proficiency requirements, Pilots, Air Traffic Controllers and all others who use English in R/T communication on international routes must be at ICAO English language level 4 (Operational) or above. This must be confirmed by successful completion of a licensing authority approved test.

Those who are assessed at ICAO level 4 or 5 must be re-tested at regular intervals. Those who fail may not be licensed to operate on international routes.

ICAO Language Proficiency Requirements

Appendix A (Annex 1) of ICAO Doc 9835, which sets out the language proficiency requirements, states that pilots, air traffic controllers and commercial radio operators shall demonstrate the ability to speak and understand the language used for radiotelephony communications to the level specified in the Appendix. The six descriptors are:

- Pronunciation
- Structure
- Vocabulary
- Fluency
- Comprehension
- Interaction

The final score for each test-taker is not the average or aggregate of the ratings in each of the six ICAO language proficiency skills but the lowest of these six ratings.
